

# Air hammers for masons and sculptors

Only for a short period!  
Professional tools at  
outstanding  
introductory prices.

# Quality - Innovation - trust

The air hammers for masons and sculptors are **manufactured 100 % in Baden-Württemberg** only. Up-to-date CNC-machines ensure a high precision.

**Our stone hammers fulfill exactly the stone working demands.**

- ergonomic design of the handle for non-tiring working
- soft start at already 1 bar
- low vibration levels against white hand disease
- high quality cylinders, pistons and insert bushings for a long lifetime
- adjusted beating frequency according to the application
- standard insert ends 10,2 x 36 mm and 12,7 x 50 mm
- adjusting beating energy for exact edging
- supplied with high-quality fitting
- soft beating , aligned edging, precise marking - starting already at 1 bar working pressure

# Mason and sculptor hammers

## Impact power for stone work

MD 121 | 122 | 123 | 124

- single-beat-start effected by sliding-valve control
- Low percussion rate but powerful beating
- Ideal percussion rate - beating power relation

MD 181 | 182 | 211 | 212

- Ideal for medium to heavy duty work like shaping and ornamentation
- high stock removal

MD 121 | 122 | 123 | 124

MD 181 | 182

MD 211 | 212
